SKILLS

Java | Object Oriented Programming | React | NodeJs | Express | MySQL | MongoDB | Git | HTML | CSS | Data Structures and Algorithms

OPEN-SOURCE EXPERIENCE

Layer5.io, Contributor

- **Main Page Scroll Problem Resolution:** Diagnosed and resolved a critical main page scroll issue, ensuring a seamless and user-friendly browsing experience.
- **Carousel Slider Functionality:** Implemented a carousel slider to enhance the visual appeal and functionality of the official website.
- **Collaboration and Support:** Assisted fellow contributors in solving problems, fostering a collaborative environment.

PROJECTS

Amazon Clone 

- *Frontend Design:* Designed the website's appearance using React and CSS, closely resembling Amazon's style.
- *Backend Development:* Implemented backend with Node.js, Express.js, and MongoDB for efficient data handling.
- *Features:* Added user authentication with JWT and secure shopping cart functionality, ensuring seamless cross-device compatibility and responsive design.

YouTube Clone 

- *Frontend Interface:* Crafted a visually engaging and responsive interface using React and CSS, mirroring the original YouTube platform's intuitive design.
- *API Integration:* Integrated YouTube API for smooth video playback and dynamic content retrieval.
- *Features:* Implemented video search, playlist management, and user subscriptions, enhancing platform usability and engagement with optimised cross-device compatibility and responsiveness.

Deed Writer, Freelance 

- *Customisation:* Developed a React project with customisable dark/light mode themes and language toggling between English and Kannada.
- *State Management:* Leveraged React's state management for seamless transitions, styled with CSS for optimal aesthetics and smooth functionality across various cross-devices.

INTERNSHIPS

Full Stack Developer | **Bharat Intern**, Designed video calling and content poster web application 

Web Developer | **WorinWell**, Developed website with Admin and User interface for job posting and apply. 

EDUCATION

Bachelor in Computer Science and Engineering

Presidency University

Jul 2020 – Jul 2024

GPA: 8.74

OTHERS

Certifications :

- Full Stack Web Developer, Udemy
- AngularJS, IBM

Achievements :

- Solved 200+ LeetCode Problems, demonstrating strong problem-solving skills and algorithmic thinking.
